

Philosophy Club Lifeboat Challenge

Weds, March 25th, 2.30-3.30, Student Union Multipurpose Room

Disaster!

Five of your faculty are stranded on a lifeboat with no hope of rescue. There's a deserted island in the distance with enough resources for them to survive and prosper. But the lifeboat only supports three

You must decide who earns a place on the lifeboat.

Which discipline will best contribute to the new world they will create? Each faculty member will argue for their place on the boat and you will vote to determine who stays on the boat!
