## **Policy on Course Substitution Using Online Courses Taken at Other Institutions**

- 1) Only coursework taken at institutions accredited by regional accreditation agencies, such as WASC, will be considered.
- 2) Courses in disciplines other than physics and engineering will be sent to the applicable department for their evaluation and advice.
- 3) The department will evaluate the proposed substitution for course content and Student Learning Outcomes to determine the appropriateness of the proposed substitution.
- 4) No course conducting unsupervised assessment online will be accepted for articulation and transfer credit from an outside institution unless a substantial portion of the online assessment, including at least a comprehensive final exam, is conducted by a professional online proctoring service. Institutions that conduct on-site assessment for their otherwise online course offerings are not subject to this condition.
- 5) The department will not accept courses where a laboratory component has been substituted with an online experience.
