Recent Accomplishments

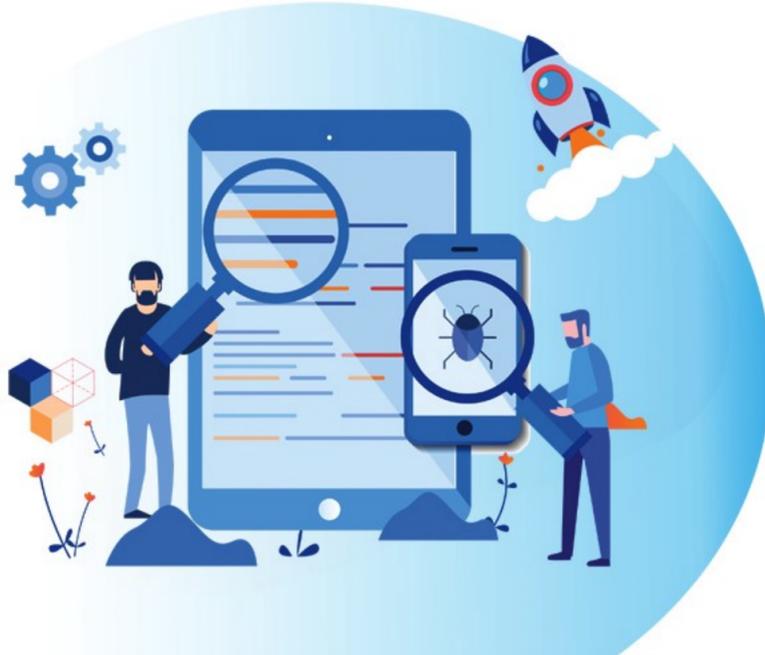

UAT in Full Force!

User Acceptance Testing (UAT) began on April 5 with approximately 30 testers from Chico and Fresno campuses. Testing will run through mid-May with large, 5-hour dedicated testing blocks, 4 days a week.

For the first few days, campuses spent time familiarizing themselves with the application. Testers are first given Procurement test scripts and has moved through all other areas of the P2P modules including Receiving, Accounts Payable, Supplier Management and validating downstream processes within CFS, such and payment and reporting.

The Core Team supported the testers by holding office hours during the first 3 weeks of testing, including splitting off into Zoom breakout rooms to support multiple testers at once. In addition, the Core Team continues to hold daily sessions with testers to review highly critical items, discuss newly unveiled requirements to determine possible solutions and/or mitigation plans.

Up next, the Core Team will meet with Chico and Fresno to review testings results and determine final sign-off!

CSU Business Conference

CSUBUY P2P was featured in two sessions at the 2023 CSU Business Conference. These sessions focused on what going live with P2P looks like and included a Q+A. If you were able to attend, please take this brief [survey](#) to let us know how you liked it! Presentation recordings and PowerPoints will be made available on the [CSUBUY P2P website](#).

Change Management Highlights

The CSUBUY P2P Core Team is excited to announce that we have created a resource website where you can **submit your questions or feedback**, and review the responses from us, all in the same place! Questions submitted will become an FAQ repository where others can go to view frequently asked questions. Check it out [here!](#)

Employee Spotlight: Robert Parkinson

Role: Senior Manager at RiseNow

Campus: Chancellor's Office

What does your job at CSU entail?

I am the RiseNow Project Manager for the CSUBUY P2P implementation.

What are you looking forward from the new P2P implementation?

I am looking forward to having users log into the system at go live and finally utilizing the system that so many people worked so hard to build.

What's something most people don't know about you?

I am an amateur beekeeper and I harvest and sell honey with my father in law.

If you could learn to do anything, what would it be and why?

I would like to learn another language and speak it fluently.

What's your favorite indoor/outdoor activity?

I love playing hockey. I am a goalie and the captain of my men's league team.
